Call for applications to actively participate in conference

International and European Law Based Regulatory Strategies for Resilience against Dis/Misinformation Cybernetic Threats

14-15 November 2025

The Charles University Faculty of Law invites legal science and other experts focusing on legal regulation of cybernetic threats and resilience against them to submit applications to actively participate in one of the panels of an international conference held as part of the **project Beyond Security: Role of Conflict in Resilience-Building (CZ.02.01.01/00/22 _008/0004595)**.

The conference will focus at both *de lega lata* and *de lege ferenda* Public International and European Law regulatory strategies against cybernetic campaigns using the tools of disinformation / misinformation.

Various conference panels will address the matters especially within the fields of International Peace and Security Law, European Law, and Human Rights Law. Consequently, applications are welcome to target legal regulation and resilience for example but not exclusively through the following questions:

- applicability of traditional notions of PIL, such as the principle of sovereignty or non-intervention, to the domain of cyberspace,

- regulatory capability of the principle of non-intervention over cybernetic elections interference campaigns,

- legal and technical problems of attributing cybernetic dis/misinformation campaigns to particular state(s),

- the EU and the regulation of disinformation in the digital sphere: a viable approach or an uphill battle against tech giants?

- protecting digital borders: the role of EU Law and cybersecurity in countering disinformation in political processes across the EU,

- existing disinformation regulatory and *soft law* strategies & initiatives and its balancing with the existing human rights protection system,

- the right to receive accurate information? State obligations regarding freedom of expression in the digital age,

- state-sponsored disinformation as a tool for political oppression: the role of human rights mechanisms in countering digital authoritarianism.

Application process

Submit your applications containing an abstract of your planned contribution (between 1-2 pages long, single spaced, font size 12) until **30 April 2025** to email address lipovsky@prf.cuni.cz, title of the email: Application for Cyber-conference 2025 [your name and surname].

The applicants will be informed by **31 May 2025** at the latest if their submissions were chosen or not.

A preliminary program will be released during **June 2025**.

The conference itself will take place in Prague, Czech Republic, on **14-15 November 2025**.
